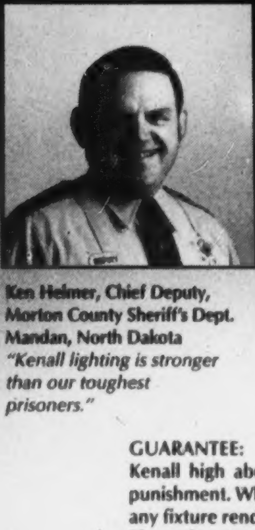
Peace of Mind Guarantee



Ken Helmer, Chief Deputy,
Morton County Sheriff's Dept.
Mandan, North Dakota
"Kenall lighting is stronger than our toughest prisoners."

Kenall lighting [illegible] Correctional [illegible] low maintenance costs.

Designed in accordance with ACA guidelines, the correctional center uses Kenall fixtures in its cell blocks, day rooms and recreation areas. Chief Deputy Ken Helmer says, "Kenall lighting is stronger than our toughest prisoners" because it deters inmates from attaching blankets or sheets to them for attempted escape or suicide.

"One of the outstanding features is that it's impossible for prisoners to obtain access to the inner portion of the lighting fixture. They can't break or remove the lamp, and they can't hide anything inside of them. It makes our facility safer," Helmer explains.

And Kenall's maintenance costs? As Helmer sums it up, "we haven't had any!"

That's "Peace of Mind."

For more information or a free product guide, call Kenall toll free at 1-800-634-5013.

GUARANTEE:
Kenall high abuse luminaires are designed and built to take exceptional physical punishment. When installed according to our instructions, Kenall will repair or replace any fixture rendered inoperable due to physical abuse within three years of purchase. Thereafter, Kenall will replace any refractor/diffuser broken during the life of the fixture free, subject to a handling charge equal to 25% of the published list price.

❖ FOREWORD

The 1990s—what will the new decade bring to corrections? The changes in corrections as exhibited through these pages tell a story of enormous growth and the continued facility crowding that comes with that growth. We have seen operational and capital expenditures budgets break through the billion dollar mark in the last decade. Populations continue to explode. New words have been added to the correctional vocabulary—boot camps, electronic monitoring, DUI/DWI, return to custody institutions and privatization.

And so it goes. Corrections cannot keep up with social policy and trends in criminal justice; according to history it never has. Corrections professionals, however, continue to make the best of intolerable conditions. We can only hope that someday, maybe, the men and women of the United States will see the situation for what it is and allow corrections to be what it should be.

An indispensable resource to the correctional community and the public and private sector, this directory provides important information on the United States and Canadian corrections systems—names, addresses, phone and fax numbers, populations, capacities, programs, etc.

The statistical summaries have been updated to provide a national overview of adult and juvenile state and federal systems. New in this issue is an expanded breakdown of the capital expenditures budgets; a three-year comparison of the aging inmate population; and a chart defining programs for shock incarceration and house arrest, and other non-institutional programs.

Corrections' volatility and political influences make it impossible for the directory to be up to date at the time of publication. Many new names and faces are represented at all levels of operations. We make an effort to keep on file changes as they occur; do not hesitate to contact the research editors if you need information.

The Association appreciates the efforts of the participating corrections officials and staff who yearly provide the information necessary for this publication. Their generous spirit of cooperation and professional concern make possible the yearly publication of this important directory.

We welcome any comments you might have for improving any aspect of this directory.

❖ MEETINGS SCHEDULE

The American Correctional Associations's two annual conventions–the Congress of Correction, in its 120th year, and the Winter Conference–are the catalysts for the advancement and growth of the Association. These international meetings give corrections practitioners from all sectors and levels of corrections and related fields the opportunity to exchange information and ideas, participate in enriching workshops and programs, and explore the latest technologies at the popular exhibit shows held in conjunction with each meeting.

Each conference features nationally known keynote speakers and experts from all areas of corrections who share their knowledge, skills, and expertise in the wide range of workshops offered. To further enhance the total convention experience, local correctional facility tours in the "host state" are available. In addition, a special Family Auxiliary registration is available allowing a registered delegate's spouse to attend all convention functions for a low price. Several fun-filled, exciting family tours offered can make an ACA convention the perfect family vacation as well.

Each year, the meetings take place in a different region of the country, allowing everyone an opportunity to attend. Thousands of delegates, including chapters and affiliates of the Association, gather to express ideas, influence national correctional policy, and promote professional development.

Be an active voice in corrections by attending the ACA's annual meetings. For further information, call the Conventions Department at 1-800-888-8784.

THE PREMIER PLATE

. . .and why you should buy it.

Take a good look at our cast iron Olympic plate. You won't find any better. Because no other manufacturer takes the steps we do to make sure this plate is the best that can be made.

Cast iron is cast iron? Not when you use cores in the holes for better tolerances. Not when you mill a plate to exact weight, or scrap it. Not when you cast every plate in your own foundry—we're the only company that does—because you want better control of your quality . . . and to maintain a production schedule that can keep your delivery promises.

In fact, our production standards are so high, there's no difference between the plates used in international competition, and the ones in your gym.

A little extreme? Not when our name's on each plate. As long as it says YORK, it's going to be the best you can buy.

Our plates are individually weighed and must not deviate more than two ounces. Those that do not conform are milled to weight, or scrapped. Wide weight discrepancies in plates can cause serious training hazards.

Each plate is ground smooth to eliminate sharp, jagged edges.

Excellence in a name.

Our plates are so well cast that you can stack them, without the stack teetering or toppling over.

The true 2.015" diameter center hole is bored by one of our skilled craftsmen and is guaranteed to fit tightly around our 1.9375" Olympic Bar.

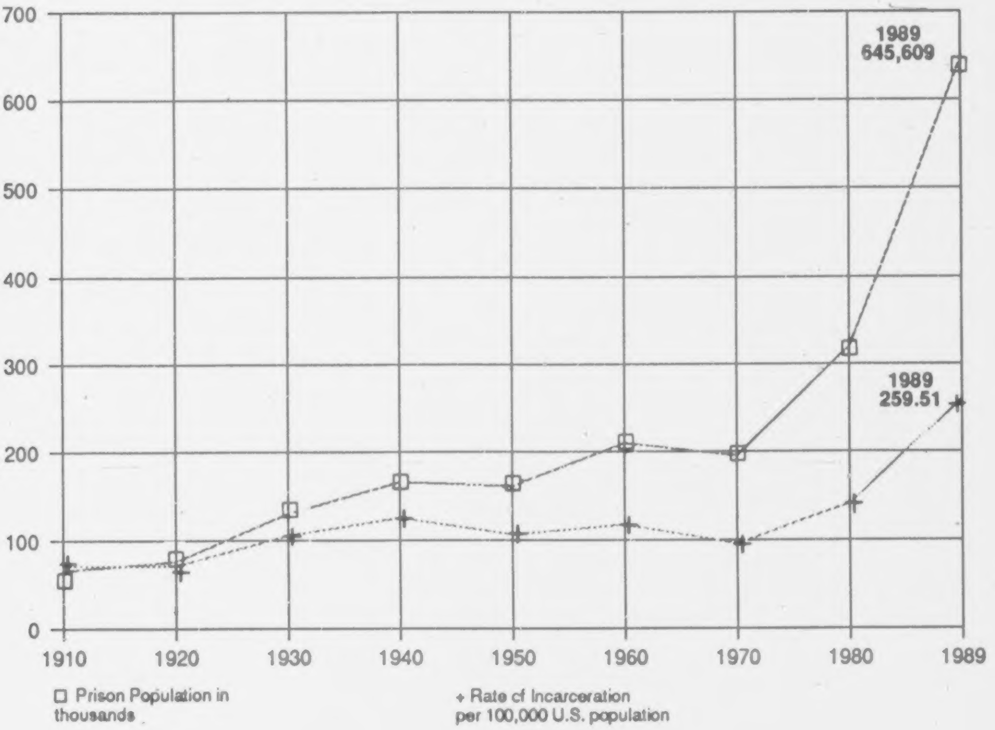
6. PA—Proposed legislation seeks to change to lethal injection.
7. FBP—Manner of execution is in accordance with laws of State in which Federal sentence is imposed. The sole offense for which capital punishment is available is Aircraft Piracy, 49 U.S.C. 1472 (i). S. 1765 would amend Federal criminal laws to provide procedures to utilize the death penalty for other offenses, such as homicide, where it is now authorized but cannot be used because of procedural inadequacies. Legislation is supported which proposes the death penalty for those inmates serving life sentences who murder while incarcerated.

PRISON POPULATION AND RATE OF INCARCERATION
In State and Federal Facilities
(as of June 30, 1989)



- ❖ Between 1910 and 1930 the U.S. Prison population doubled. The incarceration rate jumped from 71.5 to 105.5.
- ❖ During the next 50 years the prison population almost tripled, with an incarceration rate of 141.5 in 1980.
- ❖ In the following 9 years (1980-1989), the prison population more than doubled, associated with an annual incarceration rate of 259.51 in 1989.
- ❖ Using the U.S. Bureau of Census population projections from July 1, 1989 through July 1, 1993, it is projected that the U.S. population will increase at the rate of 1.01% per year.
- ❖ Using a slightly higher rate of 1.06% to project prison population (since in the past it has increased slightly faster than the general population), it is *conservatively* projected that by 1993, the U.S. Prison population will reach over 771,000 inmates with an anticipated incarceration rate of 300.7 inmates per 100,000 U.S. population.

Note: State and federal population figures do not include the District of Columbia.

Some people say we just won't leave them alone.

And they're right.

That's because at Del Norte, our goal is to have a lifetime business relationship with each of our customers. We start by installing a system designed specifically to meet their needs, and we check it to make sure it's right. We train their people in operation and maintenance and follow-up with free factory training schools. We even have a 24-hour, toll free hot line staffed by our service specialists 365 days a year. We're proud to say that after 10 years of installing perimeter systems, we can still provide the replacement parts and service for every one of them. So, when some people say we just won't leave them alone . . . that's the way we like it.

Call us today for a list of our installations.

The only way we could make this key cylinder more secure is by keeping the keys.

Introducing the new Folger Adam Maxi-Mogul™ Key Cylinder.
The most versatile, most secure cylinder available.

FOLGER ADAM

It's a whole new design*...

When you turn the key, you're opening the door to a whole new world of security. Engineered with three banks of interacting tumblers in the highest security models, this cylinder offers pick-resistance and key control never before available.

That allows greater flexibility...

Now there's one key cylinder that's right for both the cell door and the office door. Offered in three levels of security, the Maxi-Mogul lets you choose.

Level 1 is a six-tumbler version—a step above most available cylinders, yet competitively priced.

Level 2 offers the additional protection of combining from eight to ten, vertical and horizontal tumblers.

Level 3 gives maximum control with twelve to sixteen tumblers, and its own unique key grooving.

Level 1

Level 2

Level 3

For new or upgrade applications...

Whether you're specifying door hardware for a new facility, or re-locking an older one, the Maxi-Mogul Key Cylinder is right for you. It's fully compatible with existing Folger Adam products in the field, and is now being used in many of our products.

FOLGER ADAM CO.

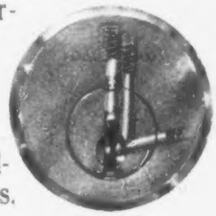
And more security than you may ever need.



With a maximum of sixteen tumblers extending from the key plug into the body of the cylinder in two directions, picking is virtually impossible. The tumblers form a unique, powerful locking arrangement stronger than ordinary or "high-security" types of builders' hardware key cylinders.

Combining our multiple-tumbler design and key cuts, an individual keyway makes over 7 billion combinations possible. That extreme level of exclusivity, supported by our unique, computer selection program assures you that no other facility in North America will ever have your combination. No interchange or phantom keying—we guarantee it!

You needed a better, more secure locking system. So, we designed a product so unique that it's custom built for your specific security needs. Come to Folger Adam for innovation. We've been giving you more service and greater value for over 90 years. For details, write or call today.

*Patent pending.

ORGANIZATION AND ADMINISTRATION

*The State Penitentiary Board was originally established through Act 1 of 1943. Act 50 of 1968 reorganized the State Penitentiary as the **Arkansas Department of Correction** and created two major boards: The **Board of Correction** and the **Board of Pardons and Paroles**. Act 937 of 1989 abolished the Board of Pardons and Paroles and the Board of Community Rehabilitation to create a **Board of Parole and Community Rehabilitation**.*

The Board of Correction consists of a Chairman, a Vice Chairman, a Secretary, two regular members, a non-voting ex-officio member who represents the Board of Parole and Community Rehabilitation and a non-voting advisory member who is actively engaged in law enforcement. Members of this Board are citizens of the state and are appointed by the Governor to staggered five-year terms.

*The chief executive of the Department of Correction is the Director. There are five main areas of responsibility: **Institutional Services; Field Services; Administrative Services; Treatment Programs and Operations**. Other areas include Maintenance & Construction, Legislative & Public Relations, Compliance which reports to the Board of Correction, Internal Affairs & Equal Employment Opportunity/Grievance Office. The Board of Parole and Community Rehabilitation is an independent board responsible only for pardon, parole and clemency action. Adult probation services are provided by the Adult Probation Commission, created in 1983 by Act 151.*

*Juvenile institutions are the responsibility of the **Department of Human Services, Division of Children and Family Services**. Juvenile services come under the jurisdiction of the circuit and chancery courts, except where additional services are provided by contractual agreements with the Division of Children and Family Services through a network of community-based centers throughout the state.*

A home detention monitoring system must combine accuracy, reliability and cost-effectiveness. MEMS provides positive visual identification and is uniquely humane.

Uncommonly Accurate. Uniquely Humane.

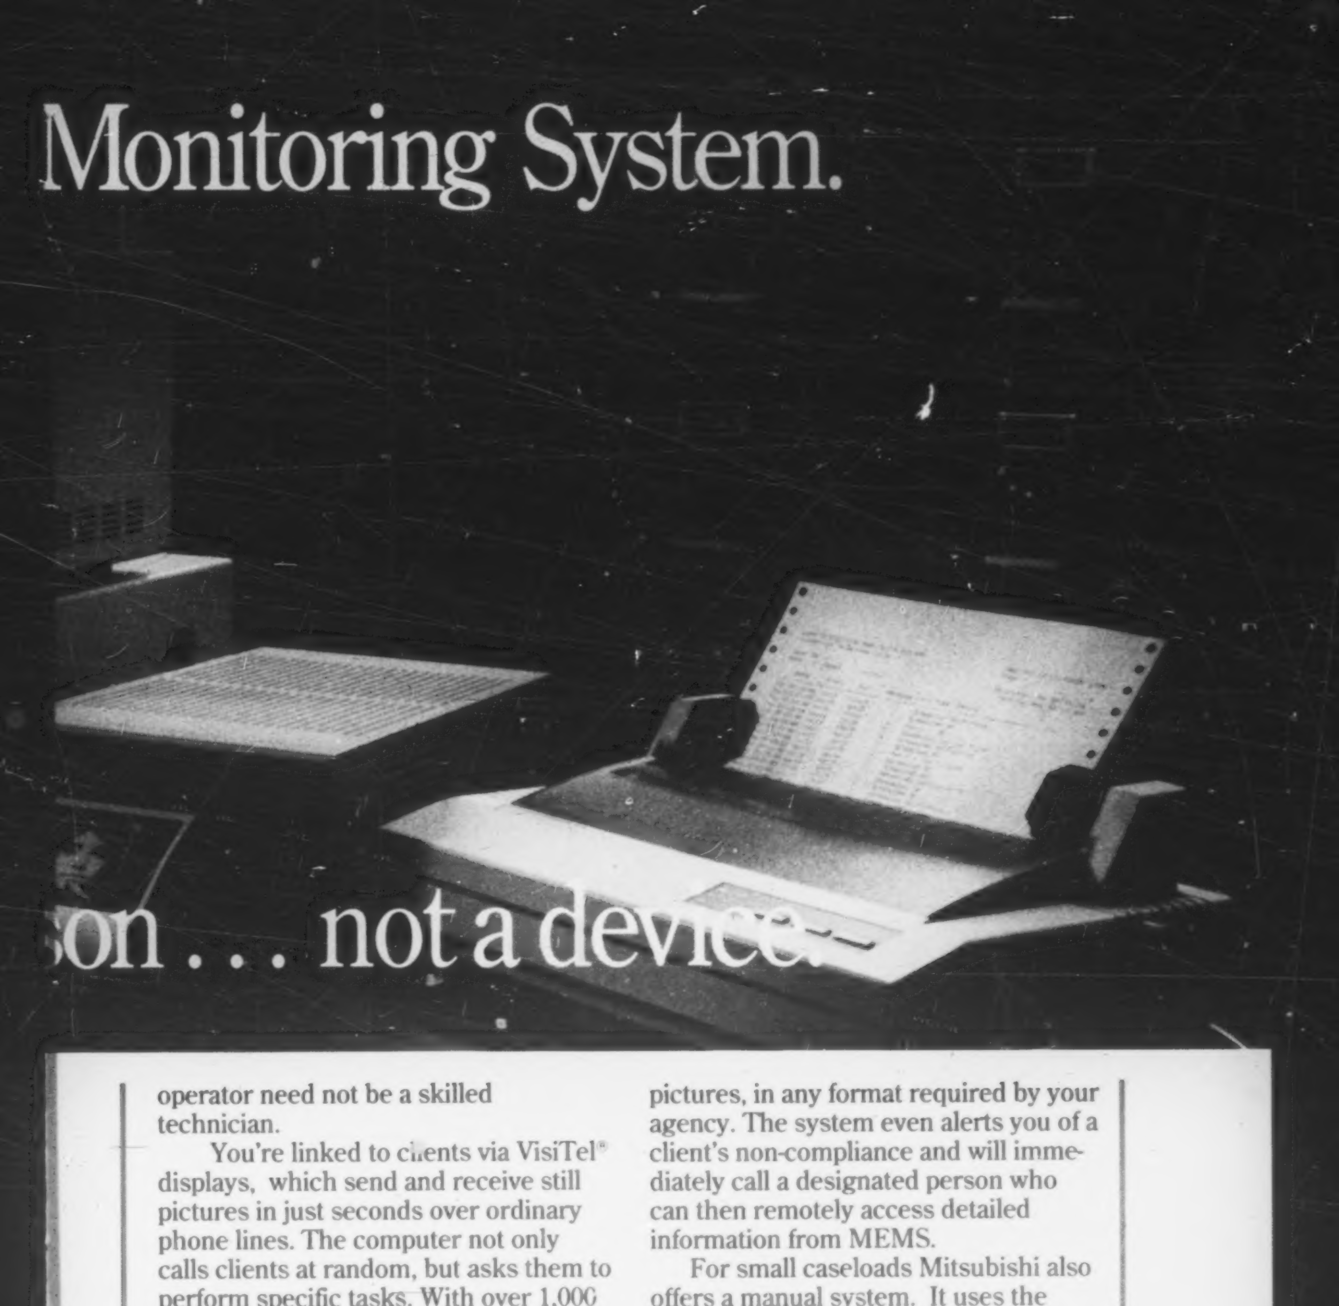
The visual telephone displays in Mitsubishi Electronic Monitoring Systems (MEMS) put you face-to-face with your clients. It allows more time for your special clients, and provides unprecedented accuracy.

Secure for adult clients. MEMS offers simple, accurate and interactive monitoring. Clients do not wear devices, and procedures are uncomplicated. Through positive *visual* identification, MEMS eliminates the false alarms associated with active systems. And with MEMS, everything can be reused, over and over again.

Positive on-site alcohol detection. No other system can verify both the alcohol level and the identity of the person at the same time. A MEMS computer calls the client, who is asked to breathe into a special breath analyzer.* A picture with a digital readout is sent to the monitoring station, verifying the client's identity and alcohol level.

Ideal for juveniles. MEMS does not require ankle or wrist bracelets that can add to a juvenile's stigma. The system allows efficient curfew checks or confirmation of a juvenile's presence. Since most are accustomed to the TV and telephone, they're familiar with MEMS technology.

Easy automated operation. MEMS doesn't require constant manning. A personal computer, capable of making 4 calls at once, maintains data on a maximum caseload of 250. Pre-programmed functions are executed automatically, so the MEMS



operator need not be a skilled technician.

You're linked to clients via VisiTel® displays, which send and receive still pictures in just seconds over ordinary phone lines. The computer not only calls clients at random, but asks them to perform specific tasks. With over 1,000 different instructions in the computer's memory, it can't be second-guessed.

A time/date generator and two printers provide hardcopies of data or pictures, in any format required by your agency. The system even alerts you of a client's non-compliance and will immediately call a designated person who can then remotely access detailed information from MEMS.

* Not provided by Mitsubishi. Ask your MEMS representative for a list of available blood alcohol testers.

For small caseloads Mitsubishi also offers a manual system. It uses the same VisiTel® displays as the automated MEMS, so you can upgrade later with minimum expense.

MEMS is surprisingly inexpensive to rent, buy and maintain. With our rental program, all system upgrades are free. And we're easy to reach. We offer 4-hour telephone response and 48-hour on-site repair service. Best of all, MEMS is backed by Mitsubishi, a name synonymous with quality and dependability.

Look into MEMS today. Call us toll-free at 1-800-422-5862 for all of the details.

CONFERENCE S 0410
CONF

While the American-made Harris Correctional Security-Plus System offers dramatic advantages over communications systems of the past, it's not exactly a new kid on the block.

Its heart is the Harris 20-20 PBX, a powerful successor to the reliable D1000 and E1200 systems. Originally designed and manufactured by Harris and proven in nearly 400 installations worldwide, in some of the harshest environments.

Today, Harris makes the only totally integrated system designed from the ground up for correctional institutions.

Thus, it offers specialized features like Fire and Emergency Conference, which automatically and continuously rings as many as 64 predetermined stations.

Watch Call Conference, which provides instant detection of head counts and any discrepancies.

Security Conference, which automatically gives your security staff instant, top-priority communications links with key personnel.

No Dial Alarm, which immediately identifies any extension on the system that is off-hook or inoperative.

And a Security display terminal, which documents all system security activity on a real-time basis with a CRT display and automatic, hard-copy printouts.

For more information, call our high-security telecommunications expert, Bill Elmi, at **(212) 984-0100.** For a system that does justice to your needs.

ORGANIZATION AND ADMINISTRATION

*In 1977, the **Department of Corrections** was formed for adult corrections, retaining the same sentencing system as it had as a division of the **Department of Institutions**. Faced with substantial growth and the need to assure effective utilization of resources, the Department reorganized on December 1, 1987, to meet those challenges and achieve new directions in organizational goals.*

*The **Division of Youth Services**, under the Department of Institutions, provides institutional and aftercare services for juveniles.*

*The **Board of Parole**, an independent agency, grants parole to adults only. Parole supervision is administered through the **Division of Community Services**. The **Juvenile Parole Board** is an independent agency within the Department of Institutions.*

*Adult and juvenile probation services are a function of the **Colorado Judicial Department**.*

ADULT INSTITUTIONS

*Commitments (of the age 16 or above) to the **Department of Corrections** are adjudicated in adult court as felons or misdemeanants and sentenced to a definite term having a fixed minimum and fixed maximum sentence. Sex offenders may be sentenced to an indeterminate term of from one day to life.*

DRUG ABUSE TESTING A DOUBLE EDGED SWORD

THE NATIONAL CENTER FOR FORENSIC SCIENCE

An effective program for testing employees and applicants for drug abuse can reduce absenteeism, accidents, theft and a loss of productivity.

A poorly established drug abuse testing program combined with a laboratory that is unreliable and inaccurate, and does not meet all testing protocol, may lead to devastating consequences in court.

THE SECURITY ADVANTAGE

The National Center for Forensic Science provides complete drug abuse testing services, personalized to your special needs. The National Center for Forensic Science is certified by the National Institute on Drug Abuse (NIDA) and the College of American Pathologists (CAP). All testing is performed according to NIDA and CAP guidelines. It is this protocol, and only this protocol, that will successfully stand up in court.

The who, what, and where of outstanding insignia.

Who else but V.H. Blackinton? Since 1852, we've been setting the standards in insignia. The result is a selection that's larger than that of all of our competitors combined. (With new styles and sizes being added all the time.)

What's new? Our latest addition is the popular ⅜″ size letter combinations for department and grade designations, now giving you four sizes to choose from. This line — as well as our entire name bar line — is also more competitively priced than ever before.

Where is it happening? You'll find Blackinton® insignia displayed in leading police departments across America. For custom-designed insignia of all kinds, **contact your local Blackinton® dealer.**

Save 1/3 the space on storage of prisoners' effects.

Correctional institutions all over the country are using White Conveyors for the storage of prisoners' effects. Many centers store these effects in garment bags or on hangers. The conveyors need no aisles and so can be "caged" or "walled in" with just a small section open for the attendant. Retrieval time is dramatically reduced. A push of a button automatically brings the proper conveyor position to the attendant. Prisoners' effects are thus stored in an organized, easily retrievable fashion.

If your space is at a premium White Conveyors may be the answer.

The only heat you want in YOUR slammer...

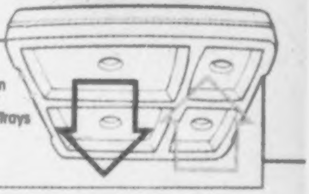
is in our SLAMMER™ OMNI II

What else could we call it?

You can drop it, bang it, smack it, throw it, stomp on it and serve food in it thousands of times over and the food will always stay hot or cold.

It's made of safe, durable polypropylene, molded in a seamless one-piece shell, surrounding a urethane foam which provides the utmost insulation and maintains a thermal consistency. Special Thermal Cones allow heat to rise to tray above and maintains the chill in cold compartments. The Slammer meets standard regulation requirements and can keep food hot up to 60 minutes.

Special Top (available separately) holds heat in uppermost tray or on a single tray for individual servings. Interlock stacking maintains temperature control during distribution period.



Thermal Cone Design Helps Maintain Food Temperatures While Trays are Stacked

JUVENILE INTAKE, PROBATION AND AFTERCARE SERVICES

Florida's 67 counties are divided into 11 districts. A district administrator administers all programs within a district. Programs for delinquent and dependent children, including the delinquency community control (probation) and furlough (aftercare) program, and delinquency intake are administered under a ***Children, Youth and Families*** *(CYF) organizational structure. Unit offices are strategically located throughout a district to serve delinquent offenders under supervision.*

The Community Control and Furlough program provides supervision of juveniles placed on community control by the courts, and for those juveniles released on furlough from commitment programs (training schools, halfway houses, etc.). Community services and restitution are a major part of community control. Juvenile offenders work in these programs for a specified number of hours as part of court-ordered supervision. Communities throughout Florida have provided hundreds of work sites for juvenile offenders.

At the headquarters level in Tallahassee, the CYF Program Office acts in a staff capacity to field staff by providing uniform policies and procedures through program manuals and administrative rules. This office is also responsible for quality control, interprogram coordination, monitoring of programs, and other functions as prescribed by law.

Each district also has a CYF Program Office to coordinate programs for dependent and delinquent children.

ORGANIZATION AND ADMINISTRATION

*Under the **Department of Corrections**, the **Facilities Division** is responsible for adult offender institutions (state and county) and transitional centers (work release, pre-release, and adjustment centers) and the **Probation Division** for services on the state and county level (field supervision, Probation/Restitution/Diversion Centers/Detention Centers).*

*The **Board of Pardons and Parole** is an independent agency which reviews adult parole cases and provides field parole supervision. It is also the only state agency vested with the power to grant clemency.*

*Under the **Department of Human Resources' Division of Youth Services**, juvenile institutions, parole and the majority of probation services are provided by county-operated and financed juvenile courts. In several counties, these responsibilities are shared by both Division of Youth Services' staff and county staff.*

JUVENILE SERVICES

Original jurisdiction in juvenile cases is at the District (Magistrate) Court level. Jurisdiction obtained by the court is currently retained until age 19, but effective January 15, 1990 it will be retained to age 21 unless terminated prior thereto. Jurisdiction is terminated after a youth is committed to the Department of Health and Welfare (DHW) and subsequently discharged by the Department. Jurisdiction is terminated when a juvenile is convicted of a felony after age 18. Juveniles under the jurisdiction of the court and charged with a felony after turning 18 are treated as adults.

Currently the courts may not commit juveniles directly to a state institution, but commit instead to the DHW with or without a recommendation for placement. Effective January 15, 1990, the courts may commit to the DHW and designate whether the commitment is for secure confinement or placement in a community based program. Secure confinement is defined as placement in a state operated facility that provides twenty-four hour supervision and confinement for youth offenders committed for custody and rehabilitation. After a youth has been committed, the Department has dispositional authority regarding which specific secure or community based program is utilized for an individual youth offender. There is only one secure facility for youth offenders in the state.

We do justice to justice architecture

We call ourselves architects and planners, but our clients know us as good listeners. That's because long before we draw lines on paper, we establish lines of communication. By listening to you and your staff, we learn what you need, what you want, what pressures you face. From conversations with you come ideas to build on - and projects built the way you want them.

If you need design services, let's talk.

The unique multi-ply construction of LEXGARD® laminates offers performance beyond other forced-entry/forced-exit glazing materials. Superior containment properties combined with its exceptional abrasion-resistant surface* assure maximum protection with toughness to stand up to daily abuse and frequent cleaning, while eliminating the high replacement costs and inconvenience of broken glass.

For every area of every secured facility, there's an appropriate LEXGARD laminate to provide the protection you need.

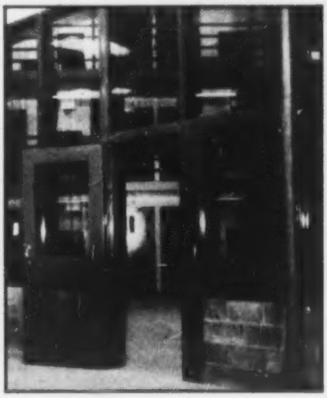
LEXAN/LEXGARD
The Ultimate in Security Glazing

For over five years, LEXGARD laminates have increased protection and reduced replacement costs at the State Penitentiary in Walla Walla, Washington.

LEXGARD laminates meet specific security needs in control rooms, day rooms, guard towers and other areas.



With abrasion resistance approaching that of glass, LEXGARD laminates stand up to years of repeated washing.

Cost-effective solutions when you need them. Just tell us what you want and we'll get you there. Not with a lot of rhetoric and preconceived "off-the-shelf" solutions. We make projects happen with qualified professionals who know how to plan projects and work hard to deliver them.

And project delivery is what counts, based on our experience with more than 9,000 beds in new state-of-the-art correctional/detention facilities since 1982.

If you need a firm that specializes in Criminal Justice Facilities – a firm that delivers projects, not just promises – call Peter P. Andreu, Jr., AIA, Director of Vanir CM's Criminal Justice Facilities Group, at 916-444-3700.

JUVENILE SERVICES

*Juvenile institutions, intake, probation, and aftercare (parole) services all come under the jurisdiction of the **Department of Juvenile Services**. The majority of children who come under the preview of the Department are supervised by juvenile counselors within the community or are placed in private community-based residential programs. Less than 10 percent are committed to institutional facilities by the courts. Commitments are for indeterminate periods of time. At the time of commitment, the Department of Juvenile Services assigns an aftercare worker to the case whose job is to prepare the community for the child's return as well as help the institution prepare the child for eventual release back into the community. The date of release is determined by the institutional staff and the aftercare worker who together make their recommendation to the courts for final approval.*

JUVENILE PAROLE BOARD

*The **Youth Parole and Review Board**, under the **Department of Social Services**, is a full-time agency whose three members conduct parole hearings for juveniles. In conjunction with the Board, there are also five Administrative Law Judges who conduct hearings. Under legislation passed in 1988, the Youth Parole and Review Board will be discontinued within three years.*

Telephone: (517) 373-0957 and (313) 256-2440

JUVENILE PROBATION AND PAROLE SERVICES

*The administration of the juvenile probation system falls within the purview of the state, the **Court Administrator** and the county levels of government. The **Office of Children and Youth Services** is required to provide consultation and assistance to juvenile probation workers and provides community supervision to youth assigned by juvenile courts.*

In all counties, juvenile courts are divisions of probate courts and have exclusive original jurisdiction over delinquent children and concurrent jurisdiction over neglected and dependent children under 17. Minors who have committed felony crimes after their 15th birthday may be waived to adult court (circuit) for trial, this decision being made by local prosecutors.

❖MINNESOTA

ORGANIZATION AND ADMINISTRATION

*Both the adult and juvenile state correctional institutions come under the jurisdiction of the **Department of Corrections**. The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, this parole authority is delegated to the **Office of Adult Release**. The **Executive Officer of Juvenile Release**, under the authority of the Commissioner, is the paroling authority for juveniles.*

*The **Board of Pardons** has the authority to grant pardons and pardon extraordinaries, and to commute sentences. The Board consists of the Governor, Chief Justice of the Supreme Court, and the Attorney General. The Commissioner of Corrections or his designee serves as secretary to the Board of Pardons.*

Probation, parole and supervised release are provided by the state and counties in different manners. Counties participating in the State Community Corrections Act (one-third of the counties; two-thirds of the state population) provide probation, parole and supervised release services to both adults and juveniles. In the remaining counties, adult services are provided by the state and juvenile services are provided by the counties either with their own personnel or through contracts with the state.

ADULT PAROLE AND SUPERVISED RELEASE AUTHORITY

The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, the Commissioner delegates this authority to the Office of Adult Release. The ***Office of Adult Release*** *consists of the Executive Officer of Adult Release and a full-time Deputy Executive Officer who are assigned part-time to assist the Executive Officer. An advisory panel composed of departmental employees advises the Commissioner regarding inmates with life sentences. The delegation of authority provides for the Executive Officer of Adult Release to grant parole and work release, to revoke parole, work release and supervised release, to discharge persons under indeterminate sentences, and to approve the condition of parole, work release, and supervised release. Parole and supervised release responsibilities were formerly performed by the Minnesota Corrections Board (parole board) which was legislatively abolished on June 30, 1982.*

ADULT AND JUVENILE PROBATION, PAROLE AND SUPERVISED RELEASE SERVICES

Probation, parole and supervised release are administered by the state and counties in different manners. Those counties under the Community Corrections Act provide probation, parole and supervised release services for both adults and juveniles. In the remaining counties, juvenile services are provided by the counties either with their own personnel or through contracts with the state. Felony services are provided by the state.

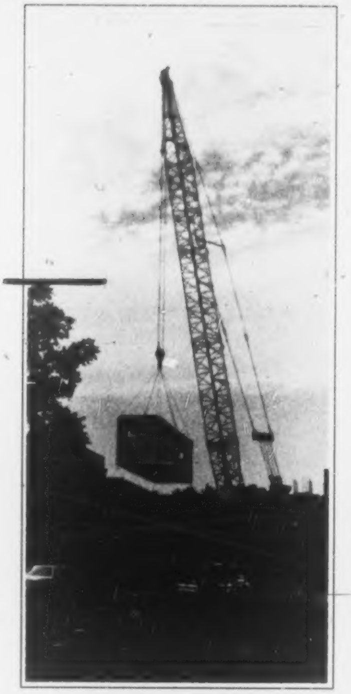
HOW WE WENT OVER THE WALL AT ALBANY JAIL.



For our customers at New York's Albany Jail, we went a little out of our way. Twenty-six feet straight up to be exact.

They needed a high-quality modular building constructed and moved into a prison courtyard with minimal security disruption. So they called BESTEEL. We built the durable, 64-bed dormitory off-site, lifted it over the prison wall and set it onto a concrete foundation. All within state fire codes. And all in under five months.

Of course, not every customer requires this kind of extra care. But when you buy a building from BESTEEL, you always get more than the average modular.

That's because BESTEEL buildings are built in a fraction of the time required for standard construction, but with the quality and durability of a permanent structure. Within a few short months, it can be in place, ready to endure the heavy demands of the correctional environment. And your overcrowding problems are solved. Quickly, securely, permanently–and cost effectively.

To learn more, call us at

1-800-BESTEEL.

We'll go out of our way for you, too.

The world's best system for fast, fool-proof identification is now available for criminal I.D., positively identifying arrestees in under 2 minutes to guard against use of aliases, accidental releases and mis-managed inmate control. Critical background information can also be immediately accessed— medical data and psychological profiles, for example. EyeDentify's Positive Criminal Identification System, based on retinal scan technology, provides complete movement audit trails without the expense, the errors, the endless paperwork that can handcuff current systems.

we've got you covered!

Golden Fleece has been making police outerwear in the U.S.A. since 1904. While old-fashioned quality is still important to us, we've grown to meet the changing needs of police and security personnel. Now, we offer a wide range of styles: short, medium and longer length jackets in a range of colors and fabrics. Many have comfort features like bi-swing backs and underarm gussets. The two garments pictured are made of Saber Cloth® featuring DuPont Cordura® Nylon for the natural fiber look but with the strength of a hi-tech nylon. We also offer Thinsulate® Thermal Insulation for warmth and comfort. And, features that make caring for your jackets easy... like our special inside zipper to change or remove buttons and fur collars that come off for easy cleaning. Write today for our complete 1989 Police Outerwear Brochure and detailed specifications.

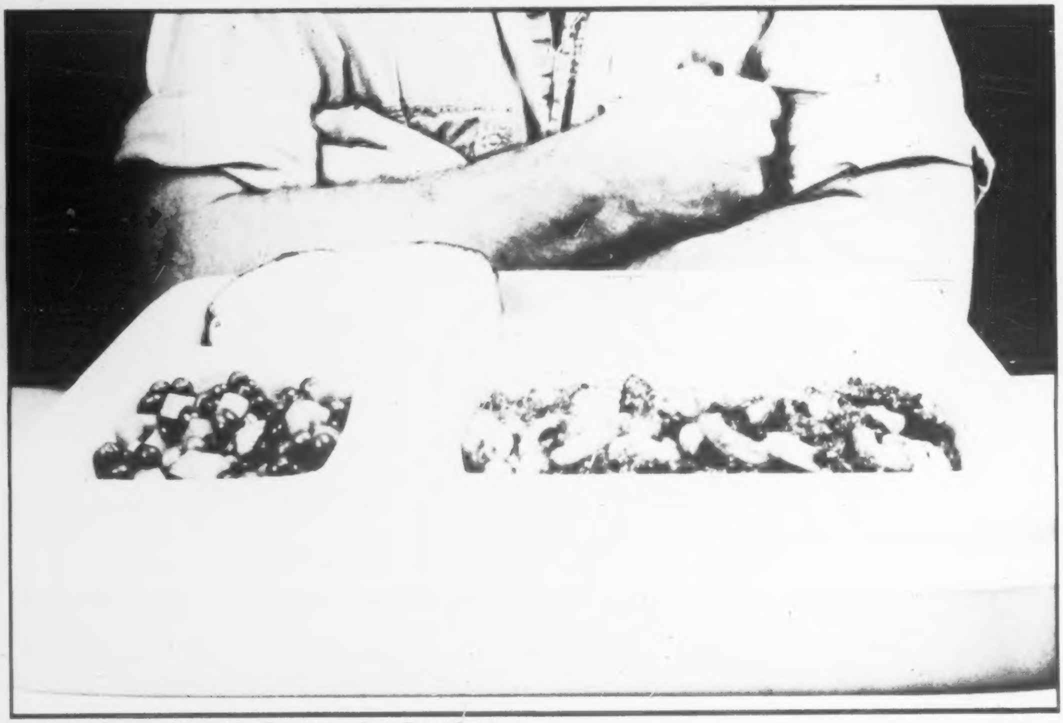
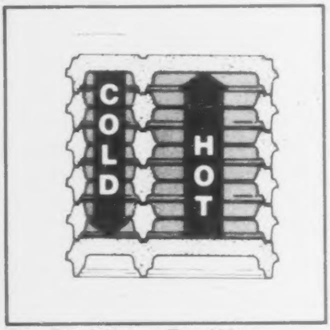
Holds Heat! Holds Up!



Insulated Servers Keep Hot Food Hot, Cold Food Cold.

The Heat's On To Keep the Heat In The Meals You Serve

Want to hold required 140°F serving minimums and find durable serviceware to do it with, too?



Tray Stack Keeps Food Hot To Required 140°F Minimums.

Use Aladdin servers. They capture the heat that's cooked into food to keep it hot. Urethane foam wrapped in a tough, molded shell, insulates it. Perfect for isolation and satellite meals.

Because servers stack in an inter-locking tower, heat rises from each serving compartment, keeping food items above warm.

Cold food items in the stack, meanwhile, keep each other chilled. Materials and seamless molding technique make system impact- and torque-resistant. Protects your investment.

COMMUNITY SERVICE CENTERS

The Community Service Centers are a pre-release concept designed to ease the re-entry of the released, adult offender into the community. Houses not more than 50 for a period of about four months. Residents work a regular full-time job or attend school or vocational training. Residents eligible for admission into the program are those who have achieved minimum custody status in the institution, who meet stipulated admission criteria and who are within seven months of release to parole or termination of sentence.

ADULT PAROLE BOARDS

*The **State Parole Board** is a full-time Board composed of a Chairman and eight Associate Members appointed by the Governor with the advice and consent of the Senate. The Board is comprised of panels for adult, young adult and juvenile cases. The members are further paired to hear county jail cases.*

Each panel consists of two Associate Members with the Chairman sitting as the third member of each panel. The Board is the paroling authority for all offenders committed as adults, young adults or juveniles in the state and county jail inmates with terms in excess of 60 days. The Board also investigates and advises the Governor on all applications for executive clemency. In 1984, a Victim Input Program was started. The Board will consider the testimonies of victims of first and second degree crimes in making decisions.

ADULT AND JUVENILE PROBATION SERVICES

As a judicial function established by statute, probation is a disposition which may be imposed on both adults and juveniles as an alternative to confinement in state or county facilities. The Supreme Court, under the leadership of the Chief Justice, is responsible for setting statewide probation policy. The Assistant Director for Probation at the state level Administrative Office of the Courts (AOC) coordinates day to day programs and activities, maintains responsibility for interstate cases, and acts as consultant to the Judiciary on probation matters. The state also manages a line operation, Intensive Supervision Program.

Assignment Judges of each judicial district make recommendations for Vicinage Chief Probation Officers. These individuals are appointed by the Director of the AOC with the approval of the Chief Justice. Assignment Judges also appoint Probation Officers, fix salaries and administer day to day operations of the local probation departments. Operating costs are paid for primarily by the counties.

JUVENILE SERVICES

Adjudicated juveniles, eight years and older, may be remanded to the care and custody of the Youth Authority for a period of not more than two years for an act that would constitute a felony if committed by an adult. Non-adjudicated and adjudicated youth may be placed on probation by the court with the Youth Authority maintaining jurisdiction and supervision. Youths may also be placed in custody for up to 90 days for diagnostic services.

in "Sweets" 1989

The corrections industry has seen many changes from suppliers and manufacturers over the years.

Just look around, almost every day you will see changes in product specs, technologies, manufacturing and design. All these encourage bewilderment, delayed shipments, product integrity and increased costs.

Are all of these changes necessary?

We at FCE say NO! Product quality, service and dependability, need never be changed or compromised... that's the FCE philosophy... and why we've been manufacturing detention equipment since 1921.

Don't get us wrong, change for the most part is good, without it we halt progress. But, think for a moment how obliging things would be with industry standards you could finally depend on...we have. That's why...

"We set the Standards"

...somebody had to!

FROM CONCEPT TO COMPLETION

It originates as a security concept— an idea for a security control system that will grow as easily as needs change. Taking a creative idea and turning it into an innovative, custom-designed security control system is what has made Unitek such a successful company.

Our technical staff will work with you to create a system that addresses your needs, and simplifies operations. And that's only the beginning. The heart of our system incorporates two standard components: relay logic control racks and circuit cards with self-diagnostic features. By incorporating these two standard components, maintenance is reduced to a minimum cost.

As well as supplying the corrections industry with security control systems, we also design and install sound, paging, and nurse-call systems. So when you're ready to take a concept and watch it become a complete, cost-effective, and extremely reliable system, call Unitek at **1-800-272-9757.**

ORGANIZATION AND ADMINISTRATION

*Adult correctional institutions and services are provided by the **Department of Correction**, a supra-agency composed of two operating divisions. The **Division of Prisons** is responsible for the incarceration of adult offenders and youthful offenders ages 16-21. Division operations are divided into two geographic commands (East and West), and three specialized commands (**Youth Services, Female, Specialized Institutions**). The **Division of Adult Probation and Parole** is responsible for the supervision of all adult probationers and parolees. The third Division, **Human Resource Management**, is responsible for personnel matters and training.*

*The **Parole Commission** is the paroling authority for adult offenders. It is funded by the Department of Correction but reports only to the Governor.*

*Juvenile institutions are operated by the **Department of Human Resources' Division of Youth Services**. A juvenile is released from an institution after completion of the "main stream" level or step program. Children are then released at the discretion of the treatment team and staff of the institution except when committed for a definite term by the court. There is no juvenile parole board as such.*

*Juvenile probation and aftercare are provided by the **Juvenile Services Division** of the **Administrative Office of the Courts**.*

Delinquent means any female or male person that has violated any penal law of this State, of the grade of felony, or a penal law of this State punishable by confinement in jail or conduct other than a traffic offense that on three or more occasions violates three jailable misdemeanors. Some offenders may be certified to be tried as an adult after reaching age 15. Sentences are indeterminate for offenders; however, the Youth Commission does have an administrative policy requiring a minimum one to two year length of stay for violent offenders. The Youth Commission retains custody until age 18.*

LEAD THEM NOT INTO TEMPTATION.

The story is the same in cities across the country.

Every year, millions of dollars worth of drugs, firearms, cash, securites and other negotiable valuables are locked away in the evidence rooms, computer rooms, research labs, and other secure areas.

And every year, a certain percentage "disappears."

Understandably. Most of these rooms are protected with locks that can be too easliy compromised by key duplication, or sophisticated lock picking.

Now there's a solution: The DOM IX KG Split Key high security lock.

The DOM IX KG System uses a unique "floating ball" split key that is virtually impossible to duplicate. Both halves are needed to operate the lock and can be obtained *only* from DOM Service Centers.

To find out how the DOM IX KG System can remove temptation from *your* secure areas, call the DOM Service Center nearest you, or call 203-828-7281.

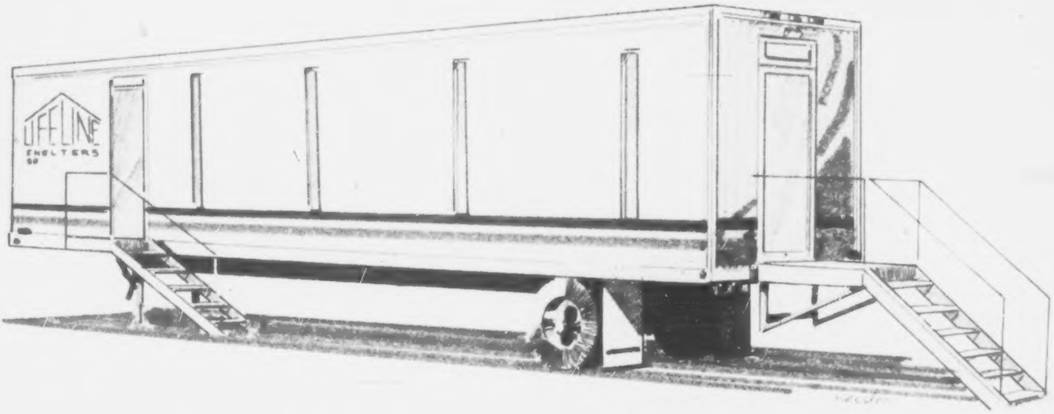
JAIL OVERCROWDED?
NEED MORE AFFORDABLE SPACE?
Lifeline Shelters Can Help!



A Revolutionary Concept in Temporary Detention Housing!

The Lifeline Alternative:

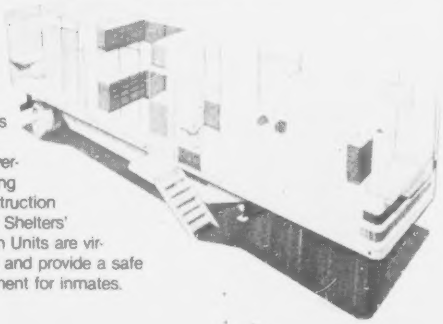
The key to the Lifeline concept in temporary incarceration space is availability, mobility, dependability, and affordability.

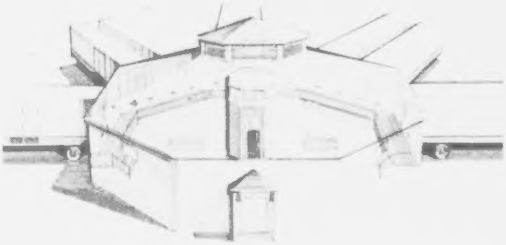
Availability:
The Lifeline Temporary Detention Unit can provide as few as eight (8) or as many as several hundred temporary incarceration beds in as little as 30-45 days.

Mobility:
Lifeline Temporary Detention Units are readily transportable and need no special license or permits for transporting; thus, units can be added, deleted or relocated to another facility when fluctuations occur in inmate population or changes occur in inmate mixes; i.e., male, female and juvenile.

Affordability:
Lifeline's concept in temporary incarceration space provides local governments with great financial flexibility. Cost-effective rental rates are available for as short of a period as one year –unlike most temporary incarceration facilities, which require 5 to 7-year lease commitments to bring per inmate costs down to affordable levels. Of course, purchase or municipal lease-purchase options are also available. Whether used alone or in conjunction with new or existing "Day Space", Lifeline's incarceration facilities are designed to maximize staff utilization, thus saving hundreds of thousands of dollars annually in staffing costs.

Durability:
The Lifeline Temporary Detention Units are built on either 48 foot or 53 foot over-the-road trailers. Using a revolutionary construction process, the Lifeline Shelters' Temporary Detention Units are virtually indestructable and provide a safe and secure environment for inmates.





The Lifeline Security Hub
96-Bed Detention Facility

Cost-Effective and Flexible:
The Lifeline Alternative

- Even with 1, 2 or 3-year short-term rental arrangements, the per inmate per day pure bed costs can be far below what you currently are paying. Modular-type detention facilities need 5 to 7-year commitments to get per day inmate costs to cost-effective levels.
- Flexibility is another key factor. Lifeline units need no special permits or licenses to transport. Individual dormitory units can be added, deleted or relocated as the size and mix of your inmate population changes. Lifeline will sit down with you annually, review your needs and respond accordingly.

INDETERMINATE SENTENCE REVIEW BOARD (FT)

This independent, four-member Board's functions include fixing minimum terms, paroling, and retaking and discharging from parole for all adult offenders sentenced to prison prior to July 1, 1984. It also must facilitate the transition from the indeterminate sentence model to the determinate sentence model now in effect in this state.

ORGANIZATION AND ADMINISTRATION

*The **Department of Corrections** is responsible for adult and juvenile correctional facilities, and adult parole supervision. The Department also handles adult and juvenile interstate compact cases for probation and parole.*

*The **Board of Probation and Parole** is the paroling authority for adults.*

*The **Supreme Court of Appeals** maintains probation departments that are responsible for providing probationary supervision services to all adults and many juveniles. Under West Virginia statute, juveniles return to the committing court for institutional release. Since release is judicially and not administratively determined, this is considered probation. These juveniles are supervised by the **Department of Human Services**. In approximately 60% of the cases, the Department of Human Services also provides the courts with juvenile probation officers.*

U.S. SENTENCING COMMISSION

1331 Pennsylvania Avenue MW, Suite 1400
Washington, DC 20004
Telephone: (202) 662-8800

The Sentencing commission is an independent agency in the judicial branch charged with promulgating mandatory guidelines for federal judges to use when sentencing individuals and organizations convicted of federal crimes. Created under provisions of the Comprehensive Crime Control Act of 1984, the Commission's goals are to eliminate unwarranted disparity in sentences meted out for similar offenders who commit similar crimes and ensure fairness in sentencing and uniformity of punishment.

The Commission's initial set of sentencing guidelines were submitted to the Congress for review on April 13, 1987 and went into effect on November 1, 1987. The Guidelines and related sentencing provisions of the Crime Control Act are applicable to all individuals whose offense occurred on or after November 1, 1987. The guidelines determine the appropriate sentence based on the specific characteristics of the offense and the offender. If incarceration is to be imposed, the guidelines specify a range of months from which the judge must choose a specific sentence. By statute, individuals sentenced under the guidelines are not eligible for early release through parole.

The Commission has ongoing monitoring, amendment, and sentencing education responsibilities. Its seven voting members are appointed by the President with the advice and consent of the Senate. The Attorney General and the Chairman of the Parole Commission also serve on the Commission as non-voting, ex-officio members.

❖CORRECTIONAL SERVICE CANADA

ORGANIZATION AND ADMINISTRATION

Adult corrections in Canada is a responsibility shared by federal, provincial and territorial governments. Generally, the Government of Canada through the ***Ministry of the Solicitor General*** *and two agencies, the* ***Correctional Service of Canada*** *and the* ***National Parole Board****, has the responsibility for all offenders sentenced to two years or more. Provincial jurisdictions are responsible for offenders serving less than two years and have exclusive responsibility for convicted offenders who are sentenced to probation.*

The Correctional Service is headed by the Commissioner of Corrections who reports to the Solicitor General. The national headquarters in Ottawa performs overall planning and policy development for the Service. Five geographic regions administer the operation of the institutions and parole offices. The National Parole Board determines whether federal inmates can be released on parole prior to the expiry of their sentence.

The Correctional Service of Canada's mission statement reads: The Correctional Service of Canada, as part of the criminal justice system, contributes to the protection of society by actively encouraging and assisting offenders to become law-abiding citizens while exercising reasonable, safe, secure and humane control.

ADULT AND JUVENILE FACILITIES BY REGION

Each Correctional Region operated a variety of adult custodial facilities which range in capacity from 15 to 400. These include large regional correctional centres, moderate-sized forest camps, and small community correctional centres. The latter often use ***Temporary Absence Programs*** *to facilitate work or educational release of inmates. The average daily adult provincial count is approximately 2,000, with annual admissions to the system in the course of the year reaching 15,000. Levels of security range from locked tiers or living units and supervised control of all inmate movement to open, unlocked centres operated in the community. Programs offered throughout the province include shop work, forestry, farm and ranch work, and fisheries enhancement.*

The Corrections Branch also operates ten youth containment and detention centres in the five regions of the province. These include maximum security, locked youth centres, open camp settings, and open community centres. The average annual admissions to the youth system are approximately 2,300, with an average bedload of 330.

In addition to custodial/gaol facilities, the Corrections Branch includes 450 community corrections staff at 79 locations. This includes probation officers, bail supervisors, and family court counsellors. The average provincial community corrections caseload is approximately 20,000.

In addition to programs directly managed by the Corrections Branch, the Branch also contracts with private groups for a number of services such as institution meals, community service order programs and other community-based attendance programs for youth.

NEWFOUNDLAND AND LABRADOR

ORGANIZATION AND ADMINISTRATION

Pursuant to the passing of the Adult Corrections Act, 1975, a division of the ***Department of Justice*** *was created whereby the provincial custodial institutions and the probation service were amalgamated. This marked the commencement of the* ***Adult Probation Services*** *under the* ***Community Corrections Branch*** *of the* ***Adult Corrections Division****. The population served is adult offenders aged 18 and up; whereas juvenile offenders are served by the* ***Department of Social Services****, and parole is a responsibility of the Correctional Service Canada.*

The ***Department of Social Services*** *is the principal agent for the delivery of* ***Youth Corrections Services****. Youth between the ages of 12-18+ years usually are referred by the youth court upon disposition for case management, but other referrals for voluntary counselling are possible. The services available usually fall into one of four categories, a) alternative measures and dispositional options, b) community corrections, e.g., probation, c) community residential care, and d) secure custody.*

ONTARIO

ORGANIZATION AND ADMINISTRATION

*The **Ministry of Correctional Services** is responsible for young offenders aged 16 and 17, and adults aged 18 years and over on remand or serving sentences of less than two years, as well as those on probation or parole.*

*The ministry is divided into two main divisions: **Operations and Corporate Services**. The ministry also has jurisdiction over the **Ontario Board of Parole** which is the paroling authority for inmates serving sentences in provincial institutions.*

The Operations Division is comprised of the Offender Programming branch, Community Corrections branch, and five regions, each with its own regional director and regional managers. All superintendents of provincial correctional facilities and probation/parole area managers report to the regional office.

The probation/parole offices in each region provide services for all young offenders and adults who have been placed under probation supervision by the courts. Staff in these offices also provide supervision for all inmates released from provincial institutions under the authority of the Board of Parole. Probation and parole officers may also be responsible for the supervision of incarcerates released on temporary absence or serving intermittent sentences.

❖PRINCE EDWARD ISLAND

ORGANIZATION AND ADMINISTRATION

The jails in Prince Edward Island accept remanded and sentenced adult prisoners, both male and female, of the age 18 and over, regardless of the offense. They also act as lock-ups for all police forces in the province. Females are seldom committed to custody.

In addition, the ***Department of Justice*** *is now responsible for young offenders aged 12 to 17. There are three facilities for young offenders within the province; one is secure custody and the other two are open custody. Those requiring short-term detention are held separate and apart in designated areas of the adult jails.*

Members will respect and protect the civil and legal rights of all clients.

Members will serve each case with appropriate concern for the client's welfare and with no purpose of personal gain.

Relationships with colleagues will be of such character to promote mutual respect within the profession and improvement of its quality of service.

Statements critical of colleagues or their agencies will be made only as these are verifiable and constructive in purpose.

Members will respect the importance of all elements of the criminal justice system and cultivate a professional cooperation with each segment.

Subject to the client's rights of privacy, members will respect the public's right to know, and will share information with the public with openness and candor.

Members will respect and protect the right of the public to be safeguarded from criminal activity.

Professional conduct/practices

No member will use his or her official position to secure special privileges or advantages.

No member, while acting in an official capacity, will allow personal interest to impair objectivity in the performance of duty.

No member will use his or her official position to promote any partisan political purposes.

No member will accept any gift or favor of such nature to imply an obligation that is inconsistent with the free and objective exercise of professional responsibilities.

In any public statement members will clearly distinguish between those that are personal views and those that are statements and positions on behalf of an agency.

Members will be diligent in their responsibility to record and make available for review any and all case information which could contribute to sound decisions affecting a client or the public safety.

Each member will report without reservation any corrupt or unethical behavior which could affect either a client or the integrity of the organization.

PEERLESS RESTRAINING DEVICES

New Hinged Handcuffs These patented handcuffs are the ultimate in restraint and provide maximum safety to the restraining officer. New hinge design prevents prisoners from using muscles and tendons to tamper with locking mechanism. When handcuffed properly, prisoners are unable to escape, even with key in hand. Hinged Handcuffs, permit cuffing in a cross arm position, preventing "stepping" through to bring hands from back to front. Particularly effective in transporting prisoners and in high security risk situations. Independent tests approved by the IACP (International Association of Chiefs of Police) have determined that these handcuffs exceed Federal standards. Can accommodate a 25% larger wrist than standard cuffs and uses a standard handcuff key.

Leg Irons

Peerless leg irons are adjustable shackles built for years of service. They are made to the same rigid specifications as U.S. government approved Peerless handcuffs. They have 19 positive locking positions to a 10" circumference and a strong 15" chain to prevent the prisoner from running. All steel construction with nickle finish and new, improved double lock. Two standard handcuff keys are furnished.
